

WOOD FLEX CLIP SYSTEM

PRE-FINISHED SOLID HARDWOOD CUSHIONED FLOOR SYSTEM

WOOD FLEX CLIP SYSTEM ADVANTAGES

- **EASE OF MAINTENANCE** – A simple daily dust mopping and weekly damp mopping is all that is needed to keep your floor looking great for years.
- **QUICK AND EASY INSTALLATION** – Since Wood Flex Clip System is a completely prefinished flooring, most floors can be self-installed.
- **MOVEABLE** – If you need to move to a new location, your Wood Flex Clip System floor comes with you.
- **SOLID HARDWOOD** – At 7/8" inch thickness the hardwood surface can be refinished a number of times, providing for an extremely long lifespan; usually well over 20 years.
- **HYGIENICALLY SAFE** – The pre-finished surface of the Wood Flex Clip System floor does not allow the growth of bacteria and is superior to many other types of surfaces.
- **IDEAL FOR ALL TYPES OF GROUP EXERCISE** – Whether it's spinning, yoga, Pilates, or aerobics exercise, Wood Flex Clip System flooring is the choice fitness facility managers are making all over the country.

WOOD FLEX CLIP SYSTEM

WOOD FLEX CLIP SYSTEM QUICK SPECS

SOLID HARDWOOD FLOORING is pre-finished tongue and groove planking. The wood surface is 7/8" of solid hardwood, allowing it to be sanded and refinished a number of times. Boards are 5" by either 6 or 12 feet in length.

INSTALLATION CLIPS are manufactured of tempered spring steel. While not only holding the boards together, the steel clips also allow the boards to deflect along the tongue and groove joint upon impact and subsequently snap back into place, allowing for ideal shock absorption for the athlete.

CUSHIONING SYSTEM is a 3/8" closed-cell polyethylene aerobic foam. This allows the boards to be cushioned as they flex along the tongue and groove joints upon impact. The foam layer allows the shock to be dissipated and taken away from the participant's body.

Available Colors/Species

WOOD FLEX CLIP SYSTEM FLOORING is unlike any other flooring for group exercise. It's not a floor that was modified from some other sport, but instead designed for the utmost in safety and athletic performance – especially group exercise. This system was created to ensure that no matter what the activity or conditioning level of the participant, it will provide immediate and precise shock absorption, and supreme comfort for your instructors and athletes.

THREE-YEAR WARRANTY

Your Wood Flex Clip System floor comes with a full three-year warranty against defects of any part of the three-component system. We offer this assurance because we are confident that you'll see that every component is made with the highest degree of quality.
